

# Home Maintenance Course

Basic DIY for adults of all ages

An enjoyable six-week course with like-minded people to learn and develop new skills to use in your own home.

## What will I learn?

- How to use the correct tools for the task
- Correct fixings e.g. nails, screws
- Refreshing grout and replacing tiles
- Cutting & fitting plasterboard

## Where can it lead?

To our part-time evening courses:

- Wall tiling for beginners
- Carpentry & joinery
- DIY plastering

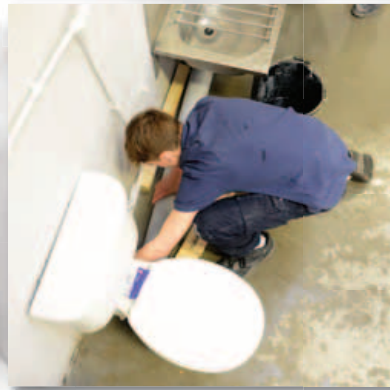

From there you may want to progress to a full qualification in your chosen field.

## Why should I do it?

Why pay for a workman to do basic tasks in your home when you can do them yourself, taking pride in letting your friends and family know it has been done by you?

Get a group of friends together or meet new people for an evening of learning in a relaxed setting with all the up-to-date tools and equipment.

Booking details: see overleaf

# DIY Car Maintenance Course

## Basic maintenance for adults of all ages

Learn the basics for more cost-effective motoring and understand what to look out for to prevent costly repairs.

### What will I learn?

- How to check oil, water and anti-freeze
- Tyre wear, pressures and defects
- How to jack up a car
- How to check lights, horn, wipers, batteries and locate the fuse box

### Where can it lead?

To our part-time evening options:

- DIY car repair courses

From there you may want to progress to a full qualification in your chosen field.

### Why should I do it?

Why pay garage costs to fix basic car problems, when you could prevent them from happening?

Many motorists admit to giving up things they love in order to run their vehicles. Don't be one of those - take matters into your own hands with our practical six-week course.
