1 Policy Statement

- 1.1 The aim of this policy is to ensure that The Priory Federation of Academies Trust (hereafter known as the Trust) manages a record through its life cycle from creation or receipt, through maintenance and use to final disposal (for destruction, transfer or permanent retention).

As a public body, the Trust is required by law to manage records appropriately. Legislation such as the Data Protection Act 1998 (to be replaced by the General Data Protection Regulation May 2018), Freedom of Information Act 2000 and Environmental Information Regulations 2004 set out specific requirements in relation to the creation and management of records.

The policy aims to ensure that all Trust staff, governors, trustees, elected members, partners, suppliers and stakeholders are aware of what they must do to manage records in an effective and efficient way.

- 1.2 This policy does not form part of any employee's contract of employment and it may be amended at any time.
- 1.3 Wherever referred to, Academy or Trust throughout this policy includes The Robert De Cheney Boarding House at The Priory Academy LSST, the Keyworth Centre at The Priory City of Lincoln Academy, the Early Years Setting at The Priory Witham Academy, Priory Training and the French Centre

2 Roles, Responsibility and Implementation

- 1.1 The Pay, Performance and HR Committee has overall responsibility for the effective operation of this policy and for ensuring compliance with the relevant statutory framework. This committee delegates day-to-day responsibility for operating the policy and ensuring its maintenance and review to the Human Resources Director.
- 1.2 Leaders and Managers have a specific responsibility to ensure the fair application of this policy and all employees are responsible for supporting colleagues and ensuring its success.

3 Aims

- 3.1 Maintaining appropriate and effective records management practices will help the Trust to deliver and meet our statutory duties. By adopting this policy the Trust aims to ensure that the record, in whatever form it takes, is accurate, reliable, ordered, complete, useful, up to date and accessible whenever it is needed.

- 3.2 By adhering to good record management principles, the Trust shall benefit from:
- Records being easily and efficiently located, accessed and retrieved;
 - Information being better protected and securely stored;
 - Records being disposed of safely and at the right time;
 - Reduced corporate risk through compliance with relevant legislation.

4 Scope

- 4.1 This policy shall apply to the management of records in all technical or physical formats or media, created or received by the Trust in the conduct of its business activities.
- 4.2 This policy applies to all Trust employees (both permanent and temporary), contractors, consultants, volunteers, secondees, elected members, governors, trustees, partners, suppliers and stakeholders who have access to records, wherever these records may be located.

5 Definitions

- 5.1 **Record:** A record is recorded information, in any form, including data in systems, produced or received and then kept in order to support and/or give evidence of an activity. Since a record is recorded information, no record may be modified.
- 5.2 **Format:** A record can be in any format including (but not limited to): paper filed, email, audio/visual, electronic documents, systems data, databases, digital images and photographs.
- 5.3 **Records Management:** The control of records during their lifetime, from creation to storage and retention until the eventual archival preservation or destruction.
- 5.4 **Records Creator:** The person that produces and receives and then keeps them in its record-keeping system.
- 5.5 **Record-Keeping System:** System or procedures by which the records are created, captured, secured, maintained and disposed.
- 5.6 **Records Declaration:** The process through which records are identified as such and distinguished by other information that is not to be regarded as recorded information.

-
- 5.7 **Official Copy:** The official copy of a record is the copy intended to give evidence of the activity supported by the record and therefore, if need be, is the one to be submitted to public authorities and other stakeholders and partners.
- 5.8 **Convenience Copy:** A convenience copy of a record is a copy of a record created for the convenience of the records creator or of someone working for the records creator e.g. to give him/her quicker access to the information contained in the record.
- 5.9 **Primary Responsibility:** The primary responsibility over a record identifies which organisational unit/person is in charge of keeping the official copy of a record and deciding about specific issues concerning its management.
- 5.10 **Vital Records:** Records without which an organisation would be unable to function, or to prove that a key activity has taken place.
- 5.11 **EDRMS:** The Trust's Electronic Documents and Record Management System. The EDRMS may be made up of one or more IT platforms.

6 Official Copies of Records

- 6.1 There shall be only one official copy of each corporate record.
- 6.2 If there are two records identical to each other to be kept by the Trust in order to give evidence of two different corporate processes, they shall be considered as two separate records, each one associated with its specific features i.e. retention and disposal schedule, file plan code etc. For example, an employee performance report kept both in the personal staff member file of the employee and in a litigation file involving the same employee.

7 Modifying Records

- 7.1 Records shall not be modified.
- 7.2 A new record shall be produced if the information contained in a record is to be corrected, amended or added.
- 7.3 This former record is to be kept in compliance with the relevant retention and disposal schedule.

8 Access to Records

- 8.1 Records shall only be accessed by staff for a business purpose.

-
- 8.2 Records shall only be disseminated to members of the public in line with the relevant legislation framework and with any other relevant Trust policy and procedure.
- 8.3 Access to the Trust records which contain personal data shall be granted (exemptions apply) in accordance with The Trust's Subject Access Request procedure (see section 15).

9 Storing Records

- 9.1 Records shall be kept in a condition so as to ensure continuing authenticity, accessibility, retrievability, intelligibility and usability throughout their whole life-cycle (including, for those selected for long-term or permanent retention, the period when they are kept in the archives).

10 Retention and Disposal

- 10.1 The retention and disposal schedules are taken from the Information Management Toolkit for Schools. Records shall be associated with their relevant retention and disposal schedule, (refer to appendix 1 for the retention and disposal schedules).
- 10.2 The Trust's retention and disposal schedules shall comply with all relevant UK statutory (including all HMRC) provisions currently in force and must be modified as appropriate.
- 10.3 The Trust's retention and disposal schedules shall identify the type of record held; the length of time each record is retained; and the way each record is to be disposed of (in some cases records are to be retained permanently).
- 10.4 The retention and disposal schedules shall be associated with the Trust corporate file plan in order to better identify the series, groups and types of records which each retention and disposal schedule applies to.
- 10.5 A Head of Service, who has primary responsibility over the record, shall be required to authorise a change to the retention or disposal schedule following the expiration of a record. If it is in contrast with the original schedule, the reason for the change needs to be documented.
- 10.6 Legal provisions shall take precedent over proposed modifications.
- 10.7 The Trust shall ensure that retention and disposal schedules are available to all staff and those managing access to the Trust records.

11 Destruction of Records

- 11.1 If provided by the relevant retention and disposal schedules, corporate records are to be destroyed when their retention periods expire.
- 11.2 Before destroying any record, it is necessary to verify that there are no specific circumstances that may prevent the destruction, such as legal holds (issued by a Court) or new business needs e.g. the record might be useful to support either legal defence or another corporate activity.
- 11.3 Destruction of corporate records shall be authorised in writing by the relevant manager, or authorised deputy, of the service area which has primary responsibility over them.
- 11.4 The service area which has primary responsibility over the records shall ensure all existing copies of the records are destroyed, regardless of format and location.
- 11.5 Destruction of records shall be recorded on a Disposal Register (a template is available from HR). The register is to be kept in digital format by the service and a copy sent to the Human Resources Department.
- 11.6 Paper records are to be destroyed by using the corporately provided lockable confidential disposal bins or confidential waste bags or by shredding the record using a cross cut shredder.
- 11.7 Confidential waste bags and lockable bins must be kept in a location not accessible to the public. Confidential waste bags are to be held and secured at all times to prevent unauthorised access.
- 11.8 Microforms, microfiches, microfilms and non-digital photos must be kept separate from paper records and placed in confidential waste bags reserved just for them.
- 11.9 Electronic records kept in a corporate application shall be deleted using the functionality within the application.
- 11.10 Sanitisation procedures for ICT storage media holding electronic records which includes optical, magnetic and solid state storage media vary with the media type, but typical methods include overwriting, degaussing and physical destruction. Advice shall be sought from the Information Governance Team when considering the destruction of such media.

11.11 In all instances where ICT storage media is destroyed, a certificate of destruction shall be provided and held as a permanent record by the relevant service area.

13 Corporate Record-Keeping System (RKS)

13.1 There shall be an adequate and appropriate allocation of resources by The Trust to maintain its corporate records.

13.2 The Trust shall ensure that corporate records are arranged and identified through the use of a corporate file plan, which also associates them with the relevant retention and disposal schedules.

13.3 The Trust shall ensure records kept are protected from damaging elements such as water, light, temperature, fire, humidity, infestation, digital viruses, power failures, information leakages and security breaches.

13.4 Any Trust off-site storage system shall be considered to be part of the global RKS. Records kept in off-site storage systems shall be managed in compliance with the provisions of this policy.

13.5 The inclusion of a document or a dataset inside the RKS shall amount to declaring it as a record.

13.6 The RKS shall identify and properly keep the official copy of any record.

13.7 Convenience copies of a record are not part of RKS, but shall be managed in compliance with relevant legislation e.g. Data Protection Act 1998 (replaced by GDPR in May 2018), Freedom of Information Act 2000, and provisions concerning legal holds.

13.8 The Trust's Electronic Documents and Record Management System (EDRMS) shall be the primary resource of The Trust's RKS.

13.9 It shall be used to store, manage and keep The Trust's digital records. If the EDRMS consists of more than one IT platform relationships between groups of records shall be highlighted and described through appropriate elements of information.

13.10 It shall be used as the reference point for The Trust's corporate analogue records by indicating in the EDRMS any other record or aggregation of records existing in analogue format. Document Reference: V2.4 Records Management Policy Page 9.

13.11 It shall be used as a reference point for any other digital record not kept in the EDRMS by indicating in the EDRMS any other digital record or aggregation of record existing outside the EDRMS.
